

Update for Pupils and Parents Thursday 26th March 2020

The following is a quotation from a message which was received by the Principal this morning from Mr Gray on behalf of the Board of Governors:

‘We know and understand the enormous pressures that have been put upon you in managing the current situation and want to reassure you that you have our total support in any actions you may see fit to take.... None of us are able to see quite where this is all going, or when it may end. I know you and many teachers; senior staff and support staff are in school maintaining the system of care for the children of essential working parents.

On a personal note may I ask you and all your colleagues to take great care and **STAY SAFE!**’.
